RESOLUTION 15 - 14

Decatur Area Metropolitan Planning Organization
Adopting the 2016 Unified Planning Work Program

WHEREAS, the Decatur Area Metropolitan Planning Organization (MPO) is the organization designated by the Governor of the State of Alabama as being responsible, together with the State of Alabama, for implementing the applicable provisions of 23 USC 134 and 135 (amended by MAP-21 Sections 1201 and 1202, July 2012); 42 USC 2000d-1, 7401; 23 CFR 450 and 500; 40 CFR 51 and 93; and

WHEREAS, the U.S. Department of Transportation (USDOT) requires all urbanized areas, as established by the U.S. Bureau of the Census, and doing area-wide urban transportation planning, to submit a Unified Planning Work Program (UPWP) as a condition for meeting the provisions of Title 23, USC, Section 134 and 135; and

WHEREAS, consistent with the declaration of these provisions, the staff of the Metropolitan Planning Organization (MPO) in cooperation with the Alabama Department of Transportation (ALDOT), has prepared a FY 2016 Unified Planning Work Program (UPWP); and

WHEREAS, pursuant to its duties, functions, and responsibilities, the Decatur Area Metropolitan Planning Organization (MPO), in session this day of August 20, 2015, did review and evaluate the aforementioned FY 2016 Unified Planning Work Program (UPWP), summarized on the attached pages; now

THEREFORE, BE IT RESOLVED by the Decatur Area Metropolitan Planning Organization (MPO) that the same does hereby adopt the FY 2016 Unified Planning Work Program (UPWP).

Adopted this the 20th day of August, 2015

Chairman, Metropolitan Planning Organization

ATTEST:

Director of Transportation Planning, Decatur Area MPO

Introduction

The Unified Planning Work Program (UPWP) is prepared for the Decatur Area Metropolitan Planning Area (MPA) annually. This document is required by state and federal regulations and details the transportation planning work tasks that will be undertaken during the upcoming fiscal year. Each task contains a purpose, previous work, proposed work, product, staffing, schedule, and financial responsibilities. This UPWP is for fiscal year 2016, from October 1, 2015 to September 30, 2016.

Purpose of the UPWP

The planning staff of the Metropolitan Planning Organization (MPO) prepares the UPWP, which is the annual work program for the Decatur Area Metropolitan Planning Area (MPA). Being charged with the responsibility of guiding the member governments within the planning area in matters relating to transportation, the planning staff has carefully coordinated the intended impacts of this UPWP. The purpose of this document is to further assure that energies and resources previously committed to regional transportation improvement projects are continued, and that the review and commitment of additional resources to these projects are comprehensive in their assessment and application. By the accomplishment of these objectives, the highest return on the transportation dollars invested will be realized.

The Transportation Planning Process

The transportation planning process is a cooperative, continuous, and comprehensive planning process that allows involvement of all users of the transportation system. This planning process follows a formal public involvement process that includes input from the business community, civic groups, environmental groups, freight operators, transit operators, and the general public, for inclusion into plans and programs conducted by the Decatur Area Metropolitan Planning Organization (MPO) and the Alabama Department of Transportation (ALDOT).

Title VI in the Preparation of the UPWP

The Decatur Area Metropolitan Planning Organization (MPO) is committed to ensuring public participation in the development of all transportation plans and programs. It is the overall goal of the MPO that the transportation planning process be open, accessible, transparent, inclusive, and responsive. As a continuing effort by the MPO to provide public access and the means by which to engage in the planning process, the MPO has established the following public participation goals for all documents and programs:

- (1) An Open Process – To have an open process that encourages early and continued public participation. All MPO and committee meetings are open to the public.
- (2) Easy Information Access – To provide complete and timely information regarding plans, programs, procedures, policies, and technical data produced or used during the planning process to the general public and the media. All MPO meeting announcements, documents, maps, and plans can be viewed at www.decaturlabamasa.com/departments/mpo.
- (3) Notice of Activities – To provide timely and adequate public notice of hearings, meetings, reviews, and availability of documents.

(4) Public Input and Organizational Response – To demonstrate consideration and recognition of public input and comments and to provide appropriate responses to public input.

(5) An Inclusive Process – To encourage participation in the planning process by traditionally under represented segments of the community; low-income groups, minorities, persons with disabilities, and the elderly; and to consider the needs of these groups when developing programs, projects, or plans.

Additionally, the Decatur Area MPO is and will be compliant with and follow all Title VI laws, processes, and programs to include the following:

- Civil Rights Act of 1964, 42 USC 2000d, et seq. which prohibits exclusion from participation in any federal program on the basis of race, color, or national origin.
- 23 USC 324 which prohibits discrimination on the basis of sexual orientation, adding to the landmark significance of 2000d. This requirement is found in 23 CFR 450.334(1).
- Rehabilitation Act of 1973, 29 USC 701 Section 504, which prohibits discrimination on the basis of a disability, and in terms of access to the transportation planning process.
- Americans with Disabilities Act of 1990 which prohibits discrimination based solely on disability. ADA encourages the participation of people with disabilities in the development of transportation and paratransit plans and services. In accordance with ADA guidelines, all meetings conducted by the MPO will take place in locations which are accessible by persons with mobility limitations or other impairments.
- Executive Order 12898 or referred to as *Environmental Justice*, which requires that federal programs, policies and activities affecting human health or the environment will identify and avoid disproportionately high and adverse effects on minority or low-income populations. The intent was to ensure that no racial, ethnic, or socioeconomic group bears a disproportionate share of negative environmental consequences resulting from government programs and policies.
- Limited English Proficiency (LEP) Plan which is required by Title VI of the Civil Rights Act of 1964, Executive Order 13166, and FTA Circular C 4702.1B, October 2012. The Decatur Area MPO has completed a Four Factor Analysis of the Decatur Area Metropolitan Planning Area (MPA) to determine requirements for compliance with the Limited English Proficiency (LEP) provisions. Based on the analysis, the MPO has identified a population within the MPA that may require MPO assistance in participating in the planning process. A Limited English Proficiency (LEP) Plan has been developed and can be accessed at www.decaturalabamausa.com/departments/mpo.

In order to further support the public participation goals of the Decatur Area MPO, the public is encouraged to participate in the development of the UPWP. The 2016 UPWP process will include two public involvement meetings designed to obtain input from the public concerning the UPWP process in the Decatur Area Metropolitan Planning Area (MPA). In addition, once the draft UPWP is approved, it will be subject to a 30-day public comment period before adoption of the final document. A summary of the public outreach activities and results are included in the Appendices. All Decatur Area MPO meetings are open to the public. At these meetings, the MPO committees review and approve the draft and final UPWP documents. Interested individuals may also review and comment upon these documents in tandem with the MPO committees. Individuals may address their concerns to the MPO committees directly at any meetings they attend. The Transportation Planner at the Decatur Area MPO should be contacted to coordinate an address to the MPO committees and to obtain draft and final documents.

Detailed public participation procedures are outlined in the 2013 Public Participation Plan (PPP) which can be found at www.decaturalabamausa.com/departments/mpo.

Organization and Management

The organization that is responsible for the overall efforts of the transportation planning process is the Decatur Area Metropolitan Planning Organization (MPO). The central unit of the MPO is the Policy Board, which consists of elected officials from the cities, towns, and counties within the designated planning area, as well as designated officials of pertinent state and federal agencies who interface with the planning staff at the MPO.

Serving the Policy Board in an advisory capacity is the Technical Coordinating Committee (TCC). This committee includes planners, engineers, and other designated representatives, who have a direct relationship to the transportation planning process within a specific jurisdiction on the federal, state, or local level.

The actions of the TCC are that of advising, reviewing, and supporting the Policy Board through analysis and evaluation of transportation projects, plans, and studies. This includes review and recommendations concerning the Unified Planning Work Program (UPWP), the Transportation Improvement Program (TIP), and the Long Range Transportation Plan (LRTP). The everyday working knowledge and input of the people on this committee are invaluable to the transportation planning process for the planning area.

Also serving in a participatory/advisory role is the Citizen's Advisory Committee (CAC). The CAC is comprised of members from the transportation committee of the Decatur/Morgan County Chamber of Commerce, as well as members from the general public. The committee meets on a regular basis and is very much involved in the transportation planning process as a grass roots type organization, which is capable and willing to explore new possibilities and options relative to all modes of transportation.

The CAC serves in a *general interest* capacity. Its major function is that of representing the interest of the public and staying abreast of what is occurring in the transportation arena, while offering its opinion and suggestions on these issues. Other involvement includes:

- Reviewing and commenting on transportation plans prepared for the planning area
- Expressing transportation needs and concerns as perceived by local residents
- Responding to social, economic, and environmental impacts of transportation projects planned for the planning area
- Assisting the transportation staff in the development of specific solutions to area-wide transportation needs

Scope of the Planning Process

The tasks included in the UPWP, are designed to follow a specific planning process in accordance with the MAP-21 legislation. In developing the UPWP, the MPO was required to consider the following eight planning factors listed below:

- a) support the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency;
- b) increase the safety of the transportation system for motorized and non-motorized users;
- c) increase the security of the transportation system for motorized and non-motorized users;
- d) increase the accessibility and mobility of people and for freight;

- e) protect and enhance the environment, promote energy conservation, improve quality of life, and promote consistency between transportation improvements and state and local planned growth and economic development patterns;
- f) enhance the integration and connectivity of the transportation system, across and between modes, for people and freight;
- g) promote efficient system management and operation; and
- h) emphasize the preservation of the existing transportation system

Livability Principles and Indicators

Increasingly, federal and state agencies are using Performance Measures as a way of ensuring greater accountability for the expenditure of public funds in an ever-growing number of programs and activities across a variety of disciplines. Within the transportation sector, and the planning processes associated with transportation infrastructure development, ALDOT has adopted the Livability Principles and Indicators as a sustainability measurement against future actions.

All planning tasks must be measured against these **Livability Principles**:

- 1) Provide more transportation choices
- 2) Promote equitable affordable housing
- 3) Enhanced economic competitiveness
- 4) Support existing communities
- 5) Coordinate policies and leverage investment
- 6) Value communities and neighborhoods

As a measure of sustainability of these principles, the MPO will provide the following **Livability Indicators** (Livability Indicator numbers correspond to Livability Principles above):

- 1) Percent of transit ridership of workers
- 1) Percent of workers using other means of transportation to work (transit, walk, bicycle, etc...)
- 2) Percent of household income spent on housing and transportation
- 3) Percent of housing units located within one (1) mile of the Central Business District (CBD)
- 4) Number of projects contained in the current Transportation Improvement Program that enhances or supports existing communities (non-roadway projects)
- 5) Number of projects contained in the current Transportation Improvement Program that includes Public and Private Collaboration and funding
- 6) Number of housing units within ½ mile of a Regional Trail System

The Indicators can be found in Appendices Section on page 33 of this document.

Planning Emphasis Areas

The Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA) identify Planning Emphasis Areas (PEAs) annually to promote priority themes for consideration in the transportation planning process. For fiscal year 2015 the following three key planning themes are:

- 1) **MAP-21 Implementation** – *Transition to Performance Based Planning and Programming*. The development and implementation of a performance management approach to transportation

planning and programming that supports the achievement of transportation system performance outcomes.

- 2) **Models of Regional Planning Cooperation** – *Promote cooperation and coordination across MPO boundaries and across State boundaries, where appropriate, to ensure a regional approach to transportation planning.* This is particularly important where more than one MPO or State serves an urbanized area or adjacent urbanized areas. This cooperation could occur through the metropolitan planning agreements that identify how the planning process and planning products will be coordinated. It could occur through the development of joint planning products, and/or by other locally determine means. Coordination across MPO and/or State boundaries includes the coordination of transportation plans, programs, corridor studies, and projects across adjacent MPO and State boundaries. It also includes collaboration among State DOTs, MPOs, and operators of public transportation, on activities such as: data collection, data storage and analysis, analytical tools, and performance-based planning.
- 3) **Ladders of Opportunity** – *Access to essential services – as part of the transportation planning process, identify transportation connectivity gaps in access to essential services.* Essential services include housing, employment, health care, schools/education, and recreation. This emphasis area could include MPO and State identification of performance measures and analytical methods, to measure the transportation system’s connectivity to essential services. It could include this information to identify gaps in transportation system connectivity that preclude access of the public, including traditionally underserved populations, to essential services. It could also involve the identification of solutions to address those gaps.

These themes will be applied to all tasks contained in this UPWP.

Public Involvement

The MPO will comply with all federal, state, and local rules and regulations, including Title VI, Environmental Justice, the American with Disabilities Act (ADA), and Section 504 of the Rehabilitation Act of 1973. The MPO will make every effort to comply with these rules and regulations during the Transportation Participation Process.

The public has an opportunity to provide input into the development of the UPWP during the MPO Policy Board meeting held June 25, 2015 and August 20, 2015. An open public comment period was held from June 25, 2015 to July 27, 2015 before the Final UPWP was adopted by the MPO Policy Board. All MPO Policy Board meetings are advertised and are also included on the MPO website at www.decalab.com/departments/mpo and the MPO Facebook page. The public is allowed to participate in discussions held at all committee meetings during the Open Public Comment time and can also provide written comments, which are reviewed by the MPO Policy Board.

Unified Planning Work Program Tasks

1.0 Administration

1.1 MPO Administration

Purpose – The purpose of this task is to administer and manage the transportation planning program mandated by current federal and state legislation as efficient as possible.

Previous Work – The staff of the North-central Alabama Regional Council of Governments (NARCOG) managed the transportation program from the MPO’s creation in 1982 to June 1, 2012, when the MPO Policy Board, in cooperation with the State of Alabama, moved the MPO operations to the City of Decatur. The MPO functions as a department within the City with the Mayor overseeing the day to day operations, with guidance from the MPO Executive Committee and Policy Board. The MPO staff has developed invoices, semi-annual reports, prepared financial audits, and participated in other meetings concerning administration of the transportation planning program. The MPO staff has developed agendas, legal notices, advertisements and attends all meetings of the Policy Board, Technical Coordinating Committee, and Citizens Advisory Committee.

Proposed Work – The MPO staff will continue to prepare agendas, meeting notices, advertisements, and attend all meetings of the Policy Board, Technical Coordinating Committee, Citizen Advisory Committee, and other Committees. The MPO staff will prepare all invoices, semi-annual reports, and a yearly financial audit. The MPO staff will also attend other meetings concerning the transportation planning process.

Product(s) – Monthly Invoices, Annual Audit Reports (Summer 2016), Meeting Agendas, Legal Notices, Minutes, Semi-Annual Reports (October 2015 and April 2016), Attend meetings concerning the transportation planning process.

Staffing – City of Decatur, MPO Staff

Schedule – N/A

Financial Responsibilities

Funding Type	Funding Source	Amount
Planning (PL)	FHWA/FTA	\$20,800
Local Match	MPO	\$5,200
Total		\$26,000

The FHWA PL and FTA 5303 planning funds have been consolidated into the PL category

1.2 Continuity of Operations Plan

Purpose – The purpose of this task is to conform to ALDOT COOP guidelines and maintain the MPO Continuity of Operations Plan (COOP). The goal is to have a COOP that will allow the staff to recover from a disaster (natural or man-made) and resume the transportation planning process as soon as possible.

Previous Work – The staff completed the Continuity of Operations Plan (COOP) in 2014. This plan was reviewed annually by the MPO staff and was updated in 2014.

Proposed Work – The MPO staff will update, review, and enhance the Continuity of Operations Plan (COOP).

Product(s) – Review, Maintain, and Update (If Necessary) the Continuity of Operations Plan (COOP)

Staffing – MPO Staff

Schedule – N/A

Financial Responsibilities

Funding Type	Funding Source	Amount
Planning (PL)	FHWA/FTA	\$1,000
Local Match	MPO	\$250
Total		\$1,250
The FHWA PL and FTA 5303 planning funds have been consolidated into the PL category		

1.3 Capital and Operating Purchases

Purpose – The purpose of this task is to purchase, repair, and upgrade equipment, computer hardware, computer software, socioeconomic data, office supplies, and furnishings necessary to managing the transportation planning process.

Previous Work – In the past, the MPO staff has purchased computers, software, office supplies, and furnishings to conduct the transportation planning process. The MPO staff has also purchased and repaired hardware for the MPO planning staff, including peripherals such as printers, plotters, recorders, and labeling machines. The MPO staff has also purchased and updated software such as Microsoft Office, ArcView, Arc Editor, and travel demand modeling software for use in the transportation planning process.

Proposed Work – The MPO staff will purchase, repair, maintain, and update computer hardware, computer peripherals, supplies, computer software, and socioeconomic data, as necessary to manage the transportation planning process.

The MPO will purchase socioeconomic employment data for the 2015 Base Year

Product(s) – Purchase new computers, software, or peripherals, if needed. Update and maintain software licenses. Purchase supplies. Repair and maintain existing computer hardware and peripherals, and purchase socioeconomic data as needed.

Staffing – MPO Staff

Schedule – N/A

Financial Responsibilities

Funding Type	Funding Source	Amount
Planning (PL)	FHWA/FTA	\$4,400
Local Match	MPO	\$1,100
Total		\$5,500
The FHWA PL and FTA 5303 planning funds have been consolidated into the PL category		

2.0 Data Collection and Analysis

2.1 Data Collection and Maintenance

Purpose – The purpose of this task is to collect, update, maintain and analyze data that is used in the transportation planning process.

Previous Work – The MPO staff has collected, updated, and maintained census data, socioeconomic data including housing units, employment data, school enrollment, income data, and environmental data using Geographic Information Systems (GIS), database software and other software for use in the transportation planning process. This data has been used in the development of the Long-Range Transportation Plan (LRTP), also the data has been supplied to MPO member governments, state and federal agencies, and to the general public when requested. The MPO staff has also tracked zoning, land use data, and building permit changes by Traffic Analysis Zones (TAZ) from information furnished by our building and planning departments.

Proposed Work – The MPO staff will collect, update, and maintain data, including socioeconomic, environmental, 2010 census data, zoning, land use, building permit data, and any other data that can be used to enhance the transportation planning process. The MPO staff will prepare and present the Livability Indicator data located on page 4 as required by an FHWA directive to ALDOT on May 2, 2012.

Product(s) – 2010 Census data, land use data, environmental data, building permits, zoning data, and socioeconomic data.

Staffing – MPO Staff

Schedule – N/A

Financial Responsibilities

Funding Type	Funding Source	Amount
Planning (PL)	FHWA/FTA	\$28,000
Local Match	MPO	\$7,000
Total		\$35,000
The FHWA PL and FTA 5303 planning funds have been consolidated into the PL category		

2.2 Transportation Model Development and Maintenance

Purpose – The purpose of this task is to develop and maintain traffic models, and traffic count data, for use in the transportation planning process, using Cube Voyager travel demand modeling software, and MOVES2014 for air quality modeling, in the MPO Planning Area.

Previous Work – In the past, the MPO staff has developed and analyzed travel demand models and collected and updated traffic count data for use in the development of the Long-Range Transportation Plan (LRTP) and for different land use developments throughout the MPO planning area. The MPO staff has also produced maps, databases, and reports showing traffic modeling results to elected officials, stakeholder groups, and the general public.

Proposed Work – The MPO staff will maintain and enhance the 2010 base year model and the 2040 future year model. The MPO staff will continue development of the 2015 base year model and 2045 future year model, as well as update the current traffic count data, provided to us by the Alabama Department of Transportation (ALDOT). The staff will produce maps and reports for the 2040 Long Range Transportation Plan (LRTP), and model any new developments or existing congestion areas, as requested by member governments.

Product(s) – 2010 base year and 2040 future year model maintenance. 2015 base year model and 2045 future year development. Update the current traffic count database (summer 2016). Produce maps and reports for the 2040 Long Range Transportation Plan, as needed, and develop traffic models if requested by member governments.

Staffing – MPO Staff

Schedule – N/A

Financial Responsibilities

Funding Type	Funding Source	Amount
Planning (PL)	FHWA/FTA	\$9,600
Local Match	MPO	\$2,400
Total		\$12,000

The FHWA PL and FTA 5303 planning funds have been consolidated into the PL category

2.3 Air Quality Conformity Determination Documentation (Air Quality Models)

Purpose – The purpose of this task is to establish the definition, scope, and procedures for the update and maintenance of Air Quality Models, to comply with conformity requirements.

Previous Work – The Staff has familiarized itself with Air Quality Modeling Software

Proposed Work – The MPO staff will familiarize itself with Air Quality software models such as MOVES2014 for use in Air Quality conformity requirements.

Product(s) – Development and Maintenance of Air Quality conformity models

Staffing – MPO Staff

Schedule – N/A

Financial Responsibilities

Funding Type	Funding Source	Amount
Planning (PL)	FHWA/FTA	\$200
Local Match	MPO	\$50
Total		\$250

The FHWA PL and FTA 5303 planning funds have been consolidated into the PL category

3.0 Unified Planning Work Program (UPWP)

3.1 Unified Planning Work Program Development

Purpose – The purpose of this task is to prepare a realistic and useful schedule of transportation planning tasks that will be performed by the MPO staff. These tasks will be accompanied by an accurate budget, necessary to support completion of each of these efforts during the current fiscal year.

Previous Work – In previous years, the MPO staff has developed an annual Unified Planning Work Program (UPWP), working closely with the Alabama Department of Transportation (ALDOT), the Morgan County Area Transit System (MCATS), and the MPO Policy Board and Committees. Also in the past, the MPO staff has prepared a draft document in the month of June and the Policy Board has approved the final document in the month of August, after a public review and comment period.

Proposed Work – The MPO staff, in conjunction with the Alabama Department of Transportation (ALDOT), the Morgan County Area Transit System (MCATS), and the MPO Boards and Committees, will develop a fiscal year 2017 UPWP, as well as update the fiscal year 2016 UPWP, if needed. The MPO staff will prepare and present the Livability Indicator data as required on page 4. This data will be displayed in the plan as numbers or percentages in charts, tables, or maps.

Product(s) – Fiscal Year 2017 UPWP, Updated 2016 UPWP amended as needed.

Staffing – MPO Staff

Schedule –

Draft FY 2017 UPWP - June 2016

Final FY 2017 UPWP - August 2016

Financial Responsibilities

Funding Type	Funding Source	Amount
Planning (PL)	FHWA/FTA	\$6,000
Local Match	MPO	\$1,500
Total		\$7,500
The FHWA PL and FTA 5303 planning funds have been consolidated into the PL category		

4.0 Public Involvement

4.1 Public Involvement and Outreach

Purpose – The purpose of this task is to be consistent with the intent of the MAP-21 legislation rules to provide for an open process, with free exchange of information and opportunity for public input at all stages of the transportation planning process. This input opportunity is also available at scheduled meetings of all committees and boards of the Metropolitan Planning Organization (MPO).

Previous Work – In the past, the MPO staff has developed a 2013 Public Participation Plan (PPP) that guides the public involvement process. The MPO staff has also conducted public presentations, workshops, and meetings concerning the Unified Planning Work Program (UPWP), the Transportation Improvement Program (TIP), and the Long-Range Transportation Plan (LRTP). The MPO staff has developed meeting notices, updated the agency website, and completed mailing notifications concerning all meetings of the Metropolitan Planning Organization (MPO). The MPO staff submitted a draft Plan in August of 2013 with the final plan being adopted by the MPO on October 9, 2013.

Proposed Work – The MPO staff will update the 2013 Public Participation Plan (PPP) as needed. The Staff will conduct public meetings concerning the Unified Planning Work Program (UPWP), the Transportation Improvement Program (TIP), the Long-Range Transportation Plan (LRTP), and other meetings concerning the transportation planning process. The MPO staff will also make public presentations as necessary, develop and distribute documentation, news releases, meeting notices, agendas, and update the agency website, when necessary. The MPO staff will describe the Livability Principles and Livability Indicators in the Public Participation Plan (PPP), and insure that agencies and the public have full access to documents and data as requested. The most current available data (as shown) used in operational plans (Long-Range, TIP, Congestion Management, Conformity Report) will be provided in the Plan.

Product(s) – Updated Public Participation Plan (PPP), Website Maintenance, UPWP Public Meetings, TIP Public Meetings, LRTP Public Meetings, MPO Policy and Committee Meetings, Public Presentations, Legal Notices, MPO Written Responses, and Mailings Lists.

Staffing – MPO Staff

Schedule – N/A

Financial Responsibilities

Funding Type	Funding Source	Amount
Planning (PL)	FHWA/FTA	\$10,400
Local Match	MPO	\$2,600
Total		\$13,000

The FHWA PL and FTA 5303 planning funds have been consolidated into the PL category

4.2 Title VI Planning and Environmental Justice

Purpose – The purpose of this task is to ensure that no person shall, on the grounds of race, color, religion, national origin, sex, disability, or socioeconomic status, be excluded from participation in, be denied the benefits of, or be subjected to discrimination involving the transportation planning process.

Previous Work – In the past, the MPO staff has developed a yearly Title VI report. The MPO staff has also identified areas within the planning area that included low-income population, minorities, disabled, and elderly populations in the MPO planning area. Public meetings were advertised in the local newspaper, on the MPO website, and also through local news releases concerning meetings held by the Metropolitan Planning Organization (MPO).

Proposed Work – The MPO staff will develop a yearly Title VI report and update public meeting notices through the local newspaper and MPO website. The MPO staff will continue to schedule public meetings, and identify underserved populations as new data becomes available. The MPO staff will ensure that it complies with the Civil Rights Act of 1964, Executive Order 13166, and FTA Circular FTA C 4702.1B, October 2012, and that it fulfills the requirements under 4702.1B of the Limited English Proficiency (LEP) provisions. The MPO will maintain the Limited English Proficiency (LEP) Plan in accordance with Circular 4702.1B, on an as-needed basis.

Product(s) – Title VI yearly report, Maps of underserved areas, Limited English Proficiency (LEP) Plan, Attend public meetings as needed, and Update and develop public meeting notices and news releases.

Staffing – MPO Staff

Schedule –

Title VI Yearly Report – September 2016

Financial Responsibilities

Funding Type	Funding Source	Amount
Planning (PL)	FHWA/FTA	\$3,200
Local Match	MPO	\$800
Total		\$4,000

The FHWA PL and FTA 5303 planning funds have been consolidated into the PL category

4.3 Disadvantaged Business Enterprise (DBE)

Purpose – The purpose of this task is to involve minority and disadvantaged business participation in the transportation planning process.

Previous Work – In the past, the MPO staff has used and involved Disadvantaged Business Enterprise (DBE) contractors for Long-Range Transportation Plan (LRTP) preparations, traffic safety studies, and transit plans. The MPO staff has used the Alabama Department of Transportation’s (ALDOT) Disadvantaged Business Enterprise (DBE) List in the recruitment process for services involving the transportation planning process.

Proposed Work – The MPO staff will involve Disadvantaged Business Enterprises (DBE) in all services related to the transportation planning process if needed. The MPO staff will also review the Alabama Department of Transportation’s Disadvantaged Business Enterprise (DBE) List to aid in the selection process for goods and services concerning the transportation planning process.

Product(s) – Disadvantaged Business Enterprise (DBE) review and selection process, review and update of the Disadvantaged Business Enterprise (DBE) List.

Staffing – MPO staff

Schedule – N/A

Financial Responsibilities

Funding Type	Funding Source	Amount
Planning (PL)	FHWA/FTA	\$1,200
Local Match	MPO	\$300
Total		\$1,500

The FHWA PL and FTA 5303 planning funds have been consolidated into the PL category

5.0 Environmental Mitigation

5.1 Air Quality Planning

Purpose – The Environmental Protection Agency (EPA) establishes tolerance limits on ground level and atmospheric pollutant concentrations, through enactment of the National Ambient Air Quality Standards (NAAQS). Air Quality planning is required for planning areas in non-attainment status and those areas anticipating non-attainment. This task provides for those activities that support the overall planning effort that could eventually result in Air Quality Conformity Determination actions.

Previous Work – MPO staff members have attended meetings and workshops concerning Air Quality issues. These meetings and workshops were conducted by the Environmental Protection Agency (EPA) and the Alabama Department of Environmental Management (ADEM). The MPO staff has also reviewed pollutant data released by the EPA and ADEM, and reported these results to all committees of the Metropolitan Planning Organization (MPO).

Proposed Work – The MPO staff will attend meetings and workshops concerning air quality. The MPO staff will also monitor the EPA and ADEM pollutant data, and present the results to all committees of the MPO. The MPO staff will develop information on Air Quality conformity/non-conformity, for use in meetings and presentations throughout the planning area.

Product(s) – None

Staffing – MPO staff

Schedule – N/A

Financial Responsibilities

Funding Type	Funding Source	Amount
Planning (PL)	FHWA/FTA	\$1,800
Local Match	MPO	\$450
Total		\$2,250
The FHWA PL and FTA 5303 planning funds have been consolidated into the PL category		

5.2 Climate Change and Green House Gas (GHG) Emissions

Purpose – The Federal Highway Administration (FHWA) has determined that climate change should be integrated into transportation planning at the state, regional, and local levels, and appropriate steps be initiated to instruct and train MPO staff in sources and causes of Green House Gas (GHG) emissions. The MPO should consider potential long range effects by, and to, the transportation network. Some effects are currently being addressed through Air Quality Conformity Determination actions in areas that have been designated as National Ambient Air Quality Standards (NAAQS) non-conforming.

Previous Work – The MPO staff has attended workshops, webinars, and presentations concerning GHG emissions.

Proposed Work – The MPO staff will continue to undergo training in climate change and GHG issues, as guidelines are provided by state and federal agencies. The MPO will become familiar with the conceptual framework as provided in FHWA’s Integrating Climate Change into the Transportation Planning Process – Final Report – July 2008. The MPO staff will also interact with the general public and local government agencies, involving Climate Change and Green House Gas emissions.

Product(s) – A trained and well informed planning staff.

Staffing – MPO staff

Schedule – N/A

Financial Responsibilities

Funding Type	Funding Source	Amount
Planning (PL)	FHWA/FTA	\$400
Local Match	MPO	\$100
Total		\$500
The FHWA PL and FTA 5303 planning funds have been consolidated into the PL category		

6.0 Transportation Systems

6.1 Long Range Transportation Plan (LRTP)

Purpose – The purpose of this task is to provide program management and coordination in the preparation and implementation of the Long-Range Transportation Plan (LRTP).

Previous Work – In the past, the MPO planning staff developed and maintained the Long-Range Transportation Plan (LRTP) for the Decatur Area Metropolitan Planning Area (MPA). These plans were updated every five years and included a twenty five year projection of future travel demand in the planning area. Included in these plans was the development and validation of a Travel Demand Model (TDM), socioeconomic data information, and future transportation project identification. In 2015, the MPO prepared the 2040 Long-Range Transportation Plan for agency and public distribution.

Proposed Work – The MPO staff will update the 2040 Long-Range Transportation Plan (LRTP), as needed, to conform to air quality standards and other major issues involving changes in the planning area. The MPO staff will hold public involvement meetings concerning the current plan. The MPO staff will continue the development of the 2045 LRTP. The MPO staff will prepare and present the Livability Indicator data, as required on page 4. This data will be displayed in the Plan as numbers or percentages in charts, tables, or maps.

Product(s) – Maintain and update the current Long-Range Transportation Plan (LRTP), to include air quality conformity and other major issues involving the transportation network and, if needed, hold public involvement meetings. Continue development of the 2045 LRTP.

Staffing – MPO Staff

Schedule – N/A

Financial Responsibilities

Funding Type	Funding Source	Amount
Planning (PL)	FHWA/FTA	\$10,400
Local Match	MPO	\$2,600
Total		\$13,000

The FHWA PL and FTA 5303 planning funds have been consolidated into the PL category

6.1.1 Air Quality Conformity Determination (LRTP Documentation Update)

Purpose – The purpose of this task is the origination and preparation of documents required by 23 CFR 450.104, for conformity purposes. This item establishes definition, scope, and procedures for conformity compliance of the Clean Air Act 42, USC 7506(c), and the governing rule for demonstrating conformity in transportation activities, 40 CFR part 93. The Conformity Rule provides for a one year grace period, following notification of EPA determination of non-conformity. For documentation purposes, this tasking includes the development of an Air Quality Conformity Report, an amended Long-Range Transportation Plan (LRTP), and an amended TIP.

Previous Work – No previous requirement

Proposed Work – The MPO staff will amend the Long-Range Transportation Plan (LRTP) project listing to comply with Air Quality Conformity Determination requirements. The MPO staff will also produce a document entitled, *FY 2017 Air Quality Conformity Determination Report for Morgan County, Alabama*, as a requirement of the conformity rule for non-attainment of the National Ambient Air Quality Standards for Ozone, for distribution to ALDOT, FHWA, FTA, and EPA. The MPO staff will prepare and present the Livability Indicator data as required on page 4. This data will be displayed in the plan as numbers or percentages in charts, tables, or maps.

Product(s) – Amended LRTP, Amended TIP, and Air Quality Conformity Report as provided under Proposed Work

Staffing – MPO Staff

Schedule – N/A

Financial Responsibilities

Funding Type	Funding Source	Amount
Planning (PL)	FHWA/FTA	\$200
Local	MPO	\$50
Total		\$250
The FHWA PL and FTA 5303 planning funds have been consolidated into the PL category		

6.2 Transportation Improvement Program (TIP)

Purpose – The purpose of this task is to produce a four-year Transportation Improvement Program (TIP) that is fiscally constrained and prioritized by fiscal year and funding sources.

Previous Work – In previous years, the MPO staff has developed, updated, and maintained the Transportation Improvement Program (TIP). The MPO staff has also held public meetings concerning the local TIP, as well as the State Transportation Improvement Program (STIP). An annual authorized project list has been produced and posted to the agency’s website. The MPO has updated and maintained projects in the TELUS database, which is an internet-based software used by the MPO in the development of the TIP.

Proposed Work – The MPO staff, in conjunction with the Alabama Department of Transportation (ALDOT), the Morgan County Area Transit System (MCATS), and the MPO Boards and Committees will maintain and update the current FY 2016 -2019 Transportation Improvement Program and amend as needed, as well as hold public meetings concerning the TIP and STIP. TELUS software will be used in the update and maintenance of the TIP, and documents and tables will be posted to the MPO web site. The MPO staff will prepare and present the Livability Indicator data, as required on page 4. This data will be displayed in the TIP as numbers or percentages in charts, tables, or maps.

Product(s) – Annual Authorized Project Listing, Amendments to the current TIP as needed, Hold public meetings and make presentations relating to the TIP and STIP as needed.

Staffing – MPO staff

Schedule –

Annual Authorized Project Listing – October 2016

Financial Responsibilities

Funding Type	Funding Source	Amount
Planning (PL)	FHWA/FTA	\$4,400
Local	MPO	\$1,100
Total		\$5,500

The FHWA PL and FTA 5303 planning funds have been consolidated into the PL category

6.2.1 Air Quality Conformity Determination (TIP Documentation Update)

Purpose – The purpose of this task is to establish definition, scope, and procedures for the update and maintenance of the Transportation Improvement Program (TIP) to comply with conformity requirements.

Previous Work – No previous requirement

Proposed Work – The MPO staff will amend and update the current Transportation Improvement Program (TIP) to comply with conformity requirements.

Product(s) – Amended TIP

Staffing – MPO Staff

Schedule – N/A

Financial Responsibilities

Funding Type	Funding Source	Amount
Planning (PL)	FHWA/FTA	\$200
Local	MPO	\$50
Total		\$250

The FHWA PL and FTA 5303 planning funds have been consolidated into the PL category

6.3 Private Enterprise Participation

Purpose – The purpose of this task is to involve the private sector in the transportation planning process.

Previous Work – In previous years, there have been special contracts awarded for planning services, such as the Long-Range Transportation Plan update and the Mass Transportation Plan. Also meetings of all committees of the Metropolitan Planning Organization have been advertised and are open to private enterprises.

Proposed Work – The MPO staff will inform private enterprises of meetings of all committees of the Metropolitan Planning Organization. The MPO staff will also update and maintain a private enterprise database and contact list.

Product(s) – The product will be a transportation planning process that allows maximum participation for private enterprises.

Staffing – MPO staff

Schedule – N/A

Financial Responsibilities

Funding Type	Funding Sources	Amount
Planning (PL)	FHWA/FTA	\$1,000
Local	MPO	\$250
Total		\$1,250
The FHWA PL and FTA 5303 planning funds have been consolidated into the PL category		

6.4 Public Transit Planning

Purpose – To offer effective assistance in the preparation of plans, reports, and documents needed in the operation and management of the Public Transit System in the Metropolitan Planning Organization planning area.

Previous Work – In the past there has been joint participation in management reviews, planning strategies, and operational assessments between the planning staff of the MPO and local transit providers. The MPO staff assisted in the transfer and startup of the Morgan County Area Transit System (MCATS). The MPO staff also worked with MCATS on the development of a twenty-year Public Transit Long-Range Transportation Plan. The MPO staffs, along with local service providers, developed and continue to maintain, a Human Services Coordinated Transportation Plan (HSCTP) that includes the MPO planning area, as well as the Rural Planning Organization planning area.

Proposed Work – The MPO staff will continue to work closely with local transit service providers on planning strategies that includes long range plans, short range plans, and the Human Services Coordinated Transportation Plan to enhance transit services in the MPO planning area.

Product(s) – The product will be a task that allows the MPO staff and the local transit service providers to work together on the development and implementation of transit plans, planning strategies, and the Human Services Coordinated Transportation Plan.

Staffing – MPO staff

Schedule – N/A

Financial Responsibilities

Funding Type	Funding Source	Amount
Planning (PL)	FHWA/FTA	\$12,000
Local	MPO	\$3,000
Total		\$15,000
The FHWA PL and FTA 5303 planning funds have been consolidated into the PL category		

6.5 Bicycle and Pedestrian Transportation Planning

Purpose – The purpose of this task is to monitor, enhance, and assist in the implementation of bicycle and pedestrian activities in the MPO planning area.

Previous Work – In the past, the MPO planning staff has developed and maintained a bicycle/pedestrian plan for the MPO planning area. The MPO staff has also assisted with the development of transportation enhancement grants for bicycle and pedestrian trails, for both recreation and as a viable form of transportation, in the MPO planning area. The MPO Policy Board approved an updated 2015 Bicycle/Pedestrian Plan on January 29, 2015 for the planning area.

Proposed Work – The MPO staff will update and review the current sidewalk, bike path, and pedestrian facility database, for inclusion into the current Bicycle/Pedestrian plan. The MPO staff will also assist in the development of Transportation Alternative Program (TAP) grants that will enhance the movement of people, goods, and services in the MPO planning area. The MPO staff will prepare and present the Livability Indicator data, as required on page 4 in this document.

Product(s) – Updated 2015 Bicycle/Pedestrian Plan, Assistance to local governments on the preparation of Transportation Alternative Program (TAP) grants.

Staffing – MPO staff

Schedule – N/A

Financial Responsibilities

Funding Type	Funding Source	Amount
Planning (PL)	FHWA/FTA	\$12,000
Local	MPO	\$3,000
Total		\$15,000
The FHWA PL and FTA 5303 planning funds have been consolidated into the PL category		

6.6 Freight Planning

Purpose – The purpose of this task is to identify modal and intermodal freight movements in the MPO planning area and make improvements to enhance these movements as necessary.

Previous Work – In the past, the MPO planning staff has developed and maintained a database of trucking terminals located in the MPO planning area. The MPO staff has also analyzed congestion areas and recommended improvements to enhance the movement of goods and services throughout the MPO planning area and the North Alabama region.

Proposed Work – The MPO staff will continue to maintain and enhance the freight database, to include trucking terminals, shippers, and other providers of freight services in the MPO planning area. The MPO staff will also monitor the transportation system in order to minimize potential problems that could have a negative impact on freight movements.

Product(s) – The product will include an updated and enhanced freight database, and a transportation system that is monitored for potential transportation problems that could have a negative impact on the movement of goods and services.

Staffing – MPO Staff

Schedule – N/A

Financial Responsibilities

Funding Type	Funding Source	Amount
Planning (PL)	FHWA/FTA	\$14,400
Local	MPO	\$3,600
Total		\$18,000

The FHWA PL and FTA 5303 planning funds have been consolidated into the PL category

6.7 Transportation Management and Operations Planning

Purpose – The purpose of this task is to assist local governments with transportation management and operations planning.

Previous Work – In the past, the MPO staff has worked with the MPO committees on the management and operation of the transportation system in the MPO planning area. Potential operational problems, such as traffic light timing and intersection functionality, were identified during this process and the corrective action was taken to enhance the movement of traffic throughout the MPO planning area.

Proposed Work – The MPO staff will continue to assist local governments in the identification of problems concerning the management and operation of the transportation system in the MPO planning area.

Product(s) – A process that allows all committees of the MPO to identify problems related to the management and operation of the transportation system in the MPO planning area.

Staffing – MPO Staff

Schedule – N/A

Financial Responsibilities

Funding Type	Funding Source	Amount
Planning (PL)	FHWA/FTA	\$14,400
Local	MPO	\$3,600
Total		\$18,000
The FHWA PL and FTA 5303 planning funds have been consolidated into the PL category		

7.0 Education and Training

7.1 MPO Planning Staff Education and Training

Purpose – The purpose of this task is to develop and maintain the planning proficiency of the MPO staff.

Previous Work – In the past, MPO staff members have attended statewide, regional, and national transportation workshops, conferences, and training sessions. This training has included travel demand modeling classes, GIS classes, and conferences and workshops that related to the transportation planning process. The MPO staff has also read and trained using publications and the internet to enhance the proficiency of the staff.

Proposed Work – The MPO staff will continue to attend workshops, conferences, and training sessions to improve and enhance the transportation planning process.

Product(s) – Attend workshops, conferences, and training sessions.

Staffing – MPO Staff

Schedule – N/A

Financial Responsibilities

Funding Type	Funding Source	Amount
Planning (PL)	FHWA/FTA	\$6,400
Local	MPO	\$1,600
Total		\$8,000
The FHWA PL and FTA 5303 planning funds have been consolidated into the PL category		

8.0 Transportation Safety

8.1 Transportation Safety Planning

Purpose – The purpose of this task is to incorporate transportation safety into the transportation planning process.

Previous Work – In the past, the MPO staff has identified high accident locations in the MPO planning area. The MPO staff has also worked with consultants on the development of specific traffic safety studies that included recommendations on projects to help in the reduction of fatalities and crashes. The MPO staff has identified projects that included signal replacements, railroad crossing enhancements, street and intersection lighting projects, and striping projects to aid in the overall safety of the traveling public in the MPO planning area.

Proposed Work – the MPO staff will monitor and identify high accident locations. The MPO staff will develop maps and reports concerning safety issues. The MPO staff will also evaluate traffic movements, freight movements, and bicycle and pedestrian movements to enhance safety in the MPO planning area.

Product(s) – Identification of high accident locations, Maps and reports concerning safety issues, Evaluation of traffic movements, freight movements, and bicycle and pedestrian movements.

Staffing – MPO Staff

Schedule – N/A

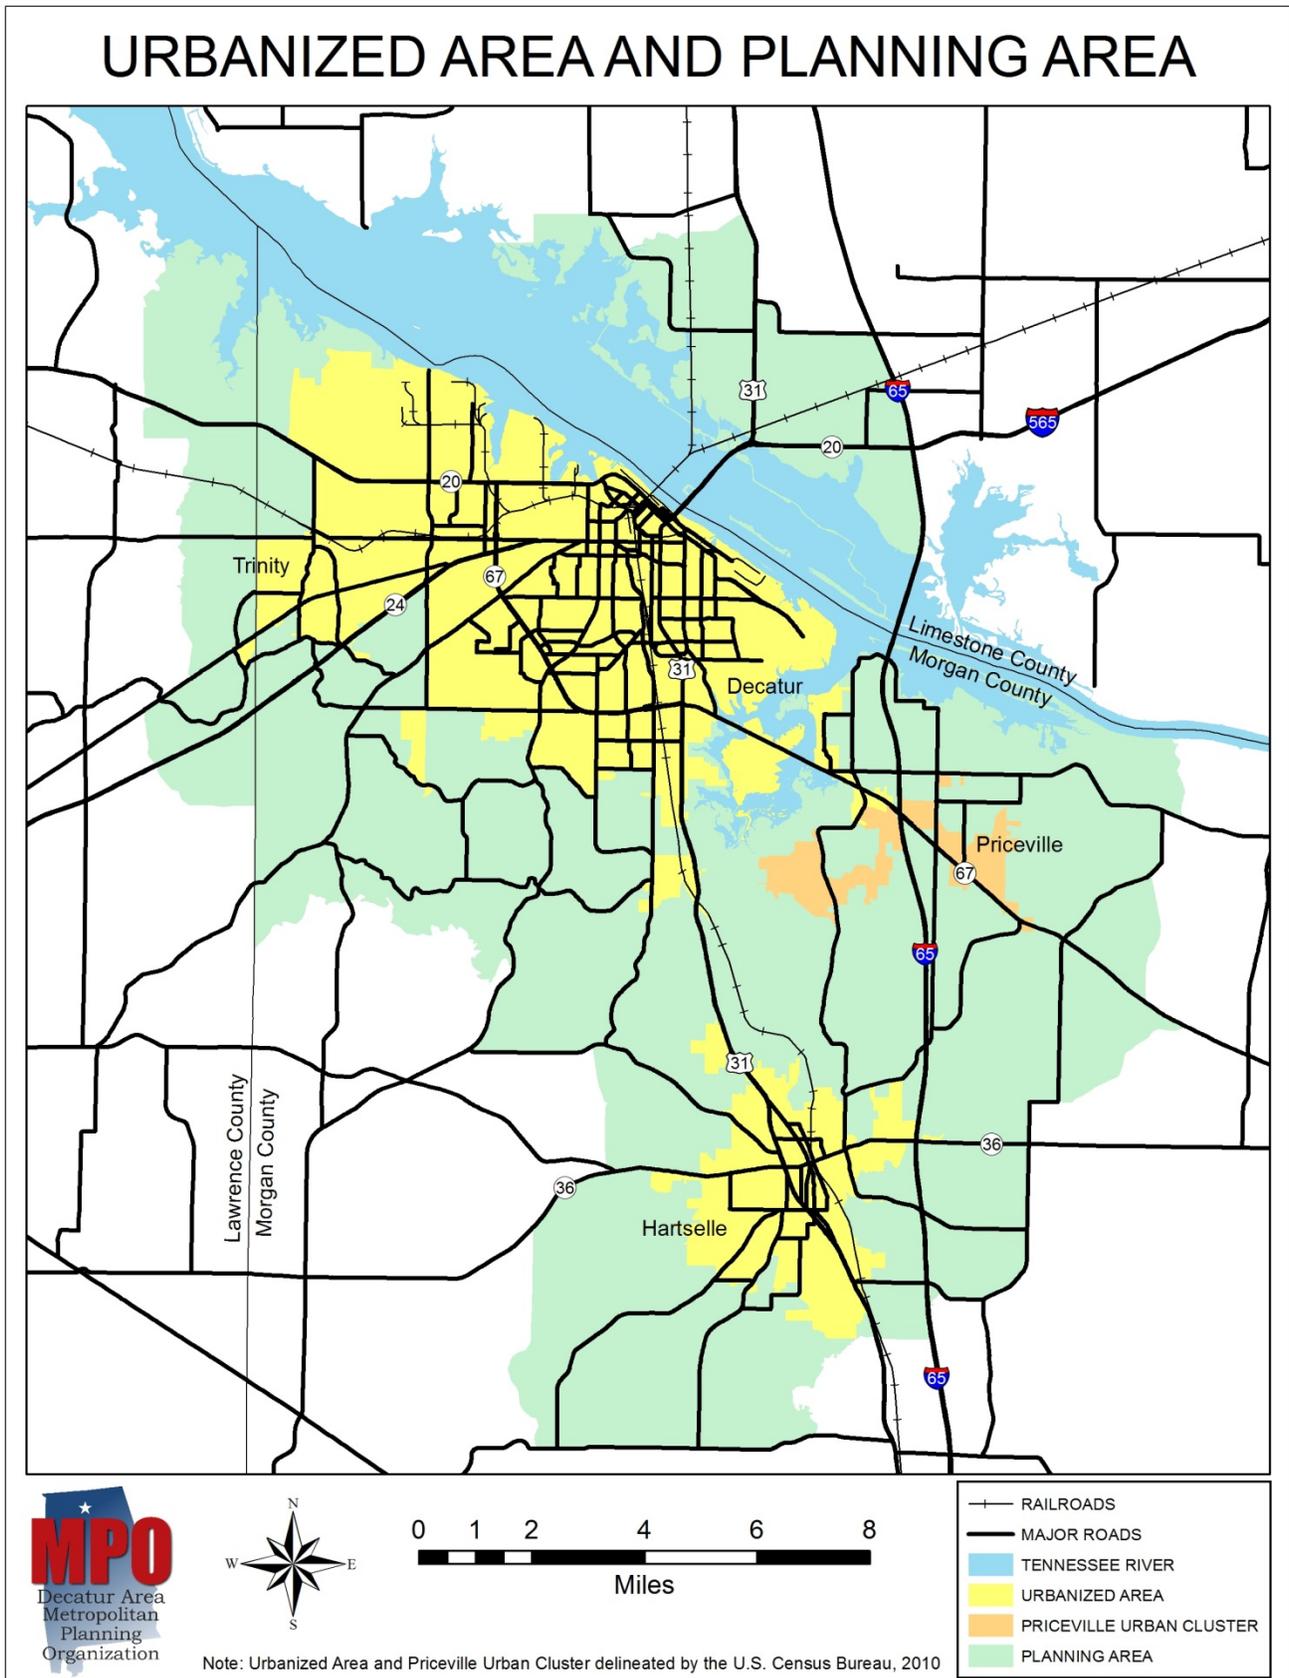

Financial Responsibilities

Funding Type	Funding Source	Amount
Planning (PL)	FHWA/FTA	\$13,600
Local	MPO	\$3,400
Total		\$17,000

MPO Citizens Advisory Committee

The Citizens Advisory Committee is comprised of numerous members of the Decatur/Morgan County Chamber of Commerce transportation sub-committee and members of the general public. The Citizens Advisory Committee meets on a regular basis and is involved in the transportation process as a grass roots organization. This group is vital to the transportation process and to the public involvement process concerning transportation related issues in the MPO planning area.

Co-Chairman, Blake McAnally

Co-Chairman, John Seymour

MPO Secretary and Staff

Mr. Dewayne Hellums, Director of Transportation Planning, Decatur Area MPO

Mr. Lee Terry, Transportation Planner, Decatur Area MPO

C. Livability Principles and Indicators

1. Provide more transportation choices

Develop safe, reliable and economical transportation choices to decrease household transportation costs, reduce our nation's dependence on foreign oil, improve air quality, reduce greenhouse emissions and promote public health.

Indicators

- Percentage of Transit Ridership in the Planning Area = 1.0%**
- Percentage of workers using other means of transportation to work (transit, walk, bicycle etc...) = 1.28% ****

2. Promote equitable, affordable housing

Expand location and energy efficient housing choices for people of all ages, incomes, races and ethnicities to increase mobility and lower the combined cost of housing and transportation.

- Percentage of Household Income spent on housing and transportation = 57%**

3. Enhance economic competitiveness

Improve economic competitiveness through reliable and timely access to employment centers, educational opportunities, services and other basic needs by workers as well as expanded business access to markets

- Percentage of housing units located within one (1) mile of a Central Business District (CBD) = 20.98%***

4. Support existing communities

Target federal funding toward existing communities through such strategies as transit-oriented mixed use development and land recycling – to increase community revitalization, improve the efficiency of public works investments and safeguard rural landscapes.

- Number of projects contained in the current Transportation Improvement Program that enhances or supports existing communities. (non-highway projects) = 9****

5. Coordinate policies and leverage investment

Align federal policies and funding to remove barriers to collaboration, leverage funding and increase the accountability and effectiveness of all levels of government to plan for future growth, including making smart energy choices such as locally generated renewable energy.

- Number of projects in the current Transportation Improvement Program that includes Public and Private collaboration and funding = 2*****

6. Value communities and neighborhoods

Enhance the unique characteristics of all communities by investing in healthy, safe and walkable neighborhoods – rural, urban or suburban

- Number of house within ½ mile of a regional trail system = 3,853*
